

Lagoon Ward Redland Hospital Graduate Nursing / Midwifery Program

Unit Overview

Lagoon Ward is a service with 28 beds, focusing on caring for inpatients including general Medicine and Medical Assessment and Planning Unit (MAPU) care. Redland Hospital is apart of the Metro South Health Service District, which includes PAH, QEII, Logan and Beaudesert Hospitals. Our team is looking forward to meeting and working with you!

- The general medicine inpatient teams aim to provide safe, innovative, evidence-based medical care to our patients, families and the hospital community. Delivered by an interprofessional, collaborative team within a positive working environment.
- The Medical Assessment and Planning Unit (MAPU) aims to provide holistic, safe, quality patient and family centred care for patients requiring admission for specialist medical assessments and planning.

Testimonials

"I am currently completing my graduate year in Lagoon Ward at Redland Hospital. My time on Lagoon has been great, I have been faced with many different learning opportunities and the team is always happy to support where help is needed. Lagoon Ward offers many different medical services and enables for different clinical learning opportunities to support career growth. I have felt very supported in times that I have struggled, and I am forever grateful for the team of nurses around me."
